It's called the Global Free Culture movement, and it's based on one simple idea: it's the right to freely share culture. In a free culture, everyone has the right to freely share, re-use, and build upon the creative works of others. Anyone can freely copy, remix, and re-purpose the creative works of others, or create new works based on their creative inspirations and inspirations from the works of others. a1d647c40b
