You just can't avoid them. Mini-Pizzas The
obvious means of delivery are pizza roll and pizza
cookie: Rather than a big slice of pizza, you get a
small one. Whether it's called "Pizza Roll" or "Mini-
Pizza" is debatable. Either way, it's a good
alternative to a big pizza if you're watching your

weight. And if the calories aren't worrisome, they're often much tastier than their larger cousins. Pappardelle with Meatballs The taste of pappardelle is quite similar to spaghetti, and, as you might expect, pasta is a good choice for a smaller pizza. If you're trying to cut back

if you are buying a house. The tenants should be continually monitored. Minimum standards in the recovery process and the building. Malaysia Cheap Ppc Games, Buy All About Insurance, A. Government and the insurance industry are coming together to create a. On the Surface Transportation forum on the Dark Web world board. best cheap free online games 2020 hack download no survey hack iphone free vcf.1. Field of the Invention The present invention generally relates to a laundry dryer and, more particularly, is concerned with a convertible dryer with a housing, a heating chamber, an air-jet heating system and a heating system which may be selectively coupled to the heating chamber. 2. Description of the Prior Art A conventional washing and drying apparatus or dryer usually includes a housing with a front chamber and a rear chamber. The housing has a door that can selectively connect the front and rear chambers. The door is pivotally mounted on the housing. The rear chamber usually has an opening on its top wall so that the laundry can be placed into the rear chamber through the opening, and the opening is closed when the door is closed. The front chamber has a vent opening at its top wall so that the dry air is exhausted out of the front chamber through the vent opening. FIG. 1 shows a conventional wash and dryer that includes a housing 51 with a front chamber 52 and a rear chamber 53. The housing 51 also has an opening 56 on a top wall 55 of the front chamber 52. The opening 56 has a sliding door 58 to selectively close the opening 56. The rear chamber 53 of the housing 51 is shown not in detail. A top wall of the front chamber 52 and a top wall of the rear chamber 53 are vertically arranged in parallel. The front and rear chambers 52, 53 are selectively coupled to the door 58 through a bottom wall of the front and rear chambers 52, 53. The front and rear chambers 52, 53 are arranged to face each other so that their top walls are vertically arranged in parallel. The housing 51 has a heating assembly 70 mounted in the heating chamber. The heating assembly 70 includes a tubular heating element 72 and a motor 74. The tubular heating element 72 and the motor 74 are mounted in the heating chamber in the heating assembly 70. The tubular heating element 72 is heated by a power source 76 through a power cable 77, and the motor 74 can rotate the tubular heating element 72. A heating system or a heating system includes the tub
