« Last Edit: August 02, 2012, 06:21:40 AM by evio » » First Edit: August 02, 2012, 01:05:24 AM by evio » Thanks for taking your time to read this! It means a lot! I hope you will like it. I know I have been always very careful to write the best I can for you! It will be a very long review. I will focus on the parts I know best because that's where I have experience. You may already know the basics of the game but we can go over them again if you want. I will explain what I think the best part of the game is and why it is great. I will talk about the obvious and the not so obvious at the same time. I will be more enthusiastic about the game itself that the game's soundtrack. ~ Evio Please keep in mind that I'm not a professional critic but I'm passionate about gaming. There will be a lot of spoilers. You've been warned! The world of Realms Between

is breathtaking. You feel like you're traveling through it when you look out the window. It is a sci-fi fantasy world where you can build up the relationship between the planets, and conquer other worlds. The signs and secrets that you encounter will be that of an epic tale. The game delivers the challenging gameplay that fantasy RPG fans have been waiting for. You have to master it to access new areas. You can't simply wander through the world while avoiding everything. You have to earn new weapons and armor. You have to defeat stronger enemies. It is an action RPG where you can collect new skills and upgrade them with money you get from your enemies. These skills can be used at the crafting stations. You will be able to learn the story of the beginning, middle and end of the game. You will be able to reach the best ending with enough skills and items. The dungeons are filled with warping and backtracking! You will have to master your inventory and learn how to spend your skill points. There are no towns or resource nodes like in standard RPGs. You have to find them, destroy them or just read the sign to get more items. It will take time and you'll have to bff6bb2d33
